# Fersa Group

We have the perfect solution adapted to your needs

The group manufactures bearing solutions worldwide and specializes in industrial and automotive applications.

It is comprised of three brands: Fersa Bearings, NKE Bearings and A&S Bearings. Together, they have over 80 years of experience in the design, production and distribution of high quality bearings for diverse applications.

## Fersa Bearings

### On the road with you

Bearing solutions for the automotive market, specialized in commercial vehicles. We innovate to offer you the best original replacement.

## NKE BEARINGS

### Infinite possibilities

High precision bearings adapted to the highest European quality standards. Covers all industrial applications, including heavy industry, agricultural, energy, and railway mass transit.

## A&S Automotive Solutions

### We take you further

The best replacement for passenger cars with one of the most complete bearing catalogs for the automobile. The range includes some 2,500 part numbers for more than 125 brands and over 3,000 models to fit your needs.

## Our History

The origins of a group with a long background

### 1968

In Zaragoza (Spain), two family bearing companies merge, creating **Fersa**.

### 1996

**NKE Bearings** brand is founded, headquarters in Steyr, Austria.

### 2016

**NKE** and **Fersa** join together, giving rise to the **Fersa Group**.

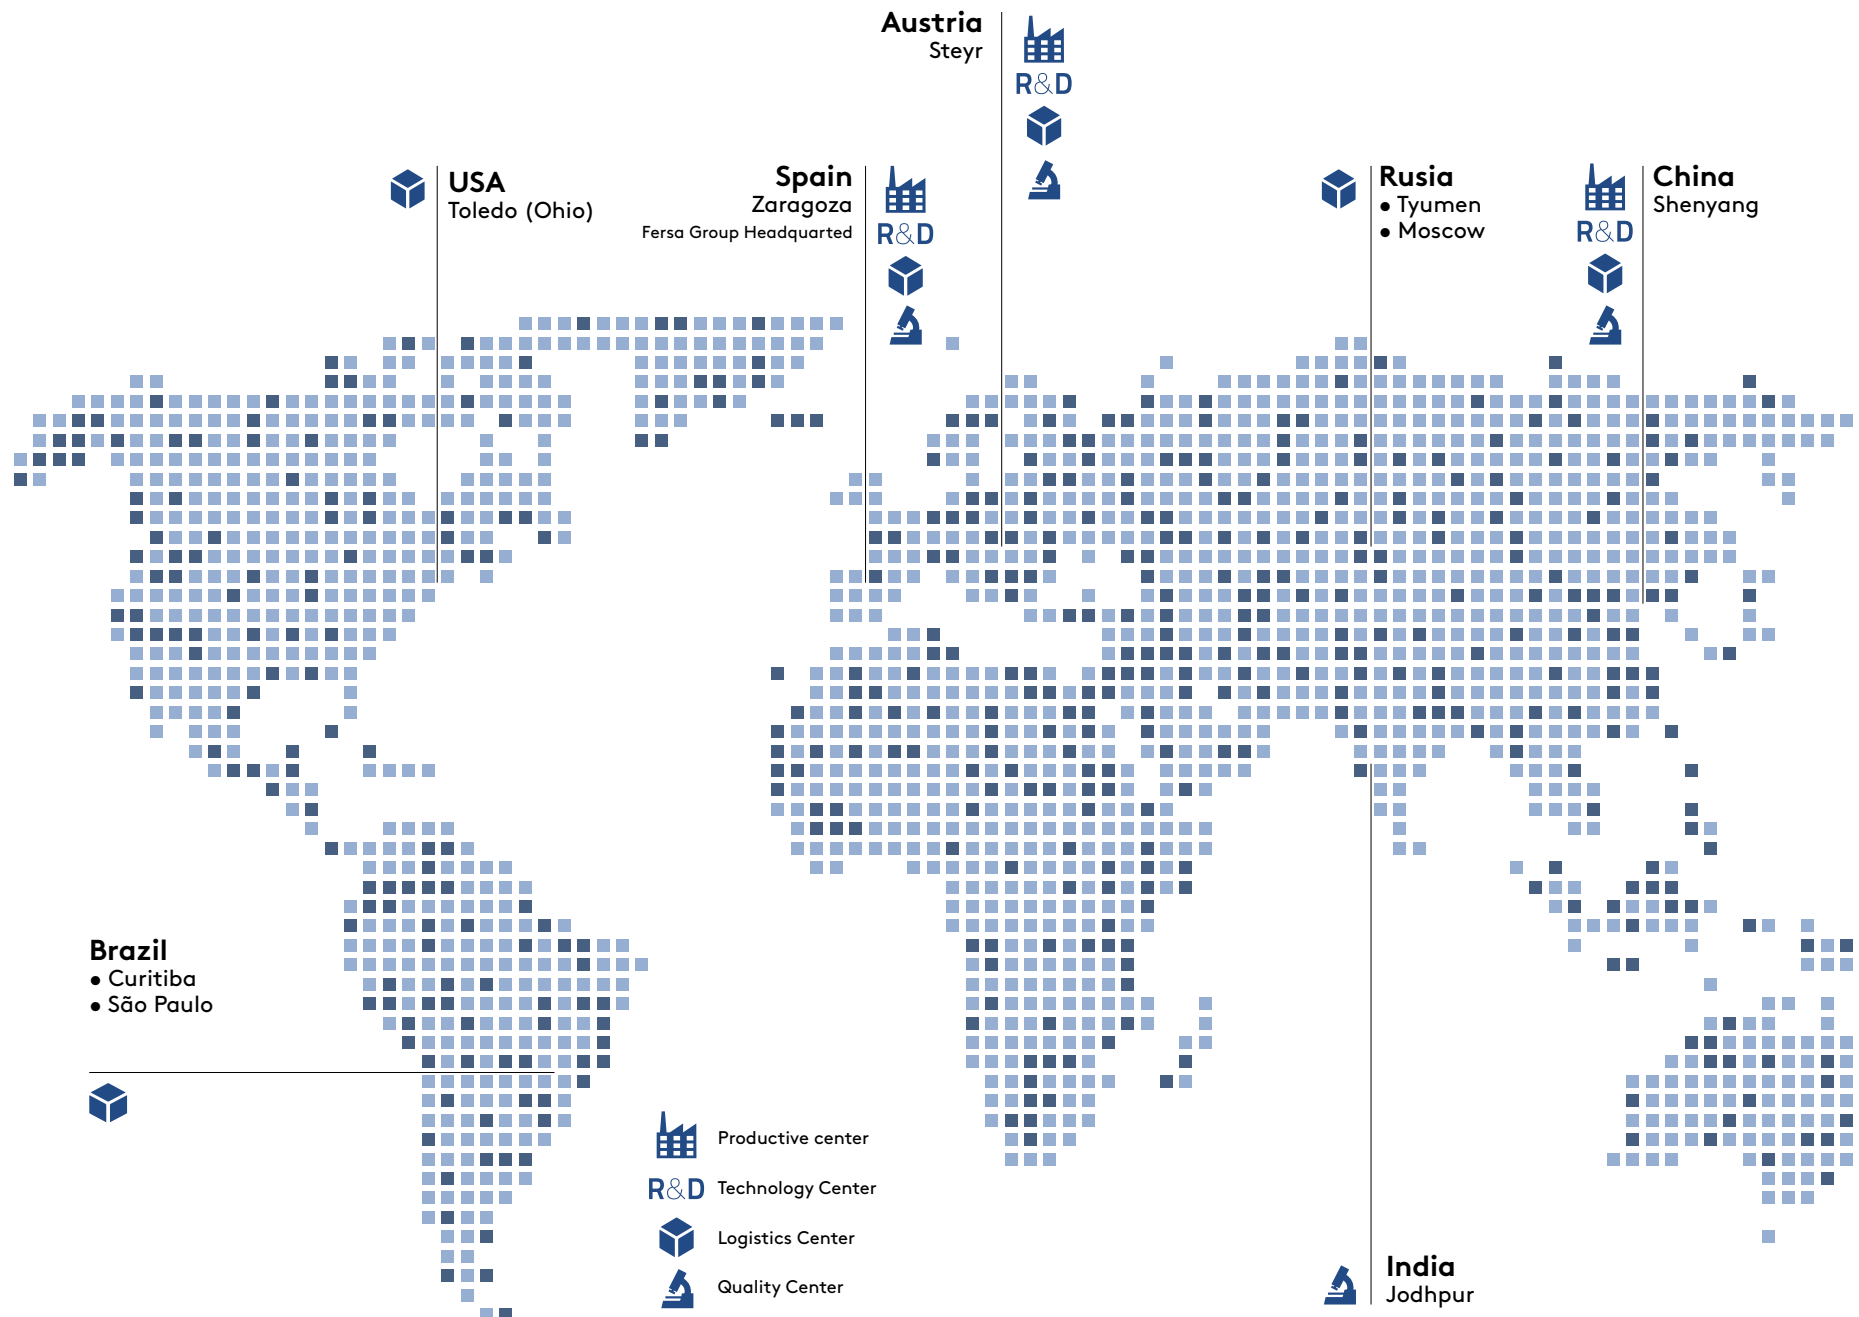

### 2018

**A&S Bearings** is born and joins the rest of the group's brands.

# Global Presence

In the right place at the right time.  
Local presence in more than  
**100 countries**

# Our figures

Fersa Group is constantly growing

20% of sales based on the development of new part numbers.

**X2**  
Sales in the last 5 years

**4,5%**  
R+D investment Total sales

**15%**  
Investment in the Internet of Things Total CAPEX

**+550**  
FTE

**+3000**  
New part numbers per year  
\* Data from 2019

# Work streams

Different needs same commitment

We accept all the challenges and adapt to the needs of various markets.

## Mobility

THE ORIGINAL AUTOMOTIVE SPARE PARTS

Heavy Commercial Vehicles · Passenger car · Bus · Trailer · Light commercial vehicle · Vans · Pick Ups

## Energy and raw material

THE PERFECT DESIGN FOR THE MOST EXTREME CONDITIONS

Wind energy · Mining · Cement plants · Metallurgy · Paper and cellulose · Wood industry

## Off Highway

LAND, SEA AND AIR

Construction machinery · Aerospace industry · Marine · Railway · Logistics · Airports · Tractors · Combines

## Industrial

INDUSTRY ENGINE

Drive Technology · Production Machinery · Food Industry · Textile · Robotics · White goods appliances · Medicine · Tools

# From original equipment to replacement parts

We are trusted by the best

\* **2 million trucks** per year drive with Fersa bearings in differential and wheel end applications.

\* **600 MW of energy** are produced per year in **35,000 windmills** equipped with our bearings.

# Innovation & Quality

We Make the Difference

Through partnerships with other agents, we bring disruptive change and innovation to the components industry. As a result, we offer premium bearings to our customers.

# Shared knowledge

We take our know-how wherever we go

We provide expertise to our partners that allows us both to grow together our respective companies.

## Work with Suppliers

We select our raw materials carefully. We ensure procedures based on transparency with our engineers at the facilities.

## Research Network

Our engineering centers lead the Bearing Excellence Network together with other international research entities.

## International programs

We collaborate with several European projects to improve the production process.

## Product

- Integration
- Improved efficiency
- Digitization and connectivity
- Adapted to the electric future  
Hi-Pro/Moss/Hybrid

## Manufacturing

- Automation
- Smart manufacturing
- Measurement of more than 20 variables
- Tests in-house
- In-house advanced technology
- Leading machinery

## Information

- Total traceability of our products
- Digital twins
- Business Intelligence

# Corporate Culture

At the heart of everything we do

## Passion

Passionate about customer satisfaction.

## Connection

Connected with our environment, we look for synergies that make us stronger.

## New challenges

Always looking for new challenges, we are not afraid to fly high.

## New ideas

We are curious. We experiment, and we always look for the best alternative.

# FERSACARE

Full service for the mechanic

We take our experience with OEMs to the workshops. We adapt to the needs of the market and offer a quality service.

We fully trust our bearings. We put at your disposal all the necessary resources to extend their useful life and guarantee optimal bearing performance.

## Fersa developed tools

We design our own tools, adapted to the needs of the mechanics and their resources.

## Academy on the road

We offer technical training to mechanics to ensure the best replacement using our products.

## Expert technicians

Our team of experienced professionals supports our customers across different sectors.
